Saranac Lake, NY • Boy Scouts Adirondack Council Receives
EPA Environmental Education Grant

The USA Environmental Protection Agency announced today the funding of sixteen environmental education grants in New York State, including a \$5,000 grant to the Adirondack Council of the Boy Scouts of America (BSA) for the Development of Ecosystem-based Education Modules for Residence Camp. Cedar Eden Environmental, LLC of Saranac Lake will work with the BSA Adirondack Council to develop education programs for summer residence camps. Focusing on the ecosystems of the Adirondack Mountains, the modules will cover acid rain, accelerated eutrophication in lakes due to human activity, nonpoint source pollution, and the impact of introducing non-native species into the Adirondack ecosystems. The modules will be designed to interest girls and boys in grades three through five at BSA and Girl Scouts of America residence camps. The program materials will encourage young campers to understand their place in ecosystems. The modules will be interactive and ecosystem-based, making them suitable for use at most residential camps.

Cedar Eden Environmental, LLC specializes in the design, implementation and management of GIS projects for Environmental Resource and Natural Features Inventories, Municipal Wastewater and Comprehensive Management Plans, Agricultural Environmental Management, Watershed Management, Regional Water Quality Assessment, and Land Use Mapping. The company also excels in lake and watershed management (water quality monitoring, aquatic plant mapping & management, restoration & management plans, permitting) and environmental design (education materials, web sites, graphics).
